

Technical Visit: Wednesday, November 9th from 13:00 - 18:00

Detailed Programme

- 13:00 - 14:00 Departure from Intell Hotels Rotterdam (Schiedamsedijk 140, Rotterdam) to IHC Merwede (Smitweg 6, Kinderdijk)
- 14:00 - 14:30 IHC Merwede and OceanfLORE in deep sea mining
- 14:30 - 14:45 Break
- 14:45 - 15:30 Technical presentation about our research and development program; requirements at greater depths
- 15:30 - 18:00 Tour Kinderdijk shipyard
- 18:00 - 19:00 Return from IHC Merwede to Intell Hotels Rotterdam

At the quay will be the vessel "CHANG JIANG KOU 01", built for the Yangtze Estuary Waterway Administration Bureau MOT, which is based in the People's Republic of China.

On the slipway will be the self-propelled cutter suction dredger "Artemis" built for Van Oord.

On the bus and during the tour representatives of the units of IHC Deep Sea Dredging & Mining, MTI Holland and OceanfLORE will join the group. The South-African unit IHC Marine and Mineral Projects will also be represented.
